

Made in Whitby Membership Terms & Conditions

Businesses must be based in YO21/YO22 area which also includes Staithes, Robin Hoods Bay and some of the Esk Valley area.

Products must be of high quality, with a clear provenance and traceability of being made within the Whitby catchment area.

Made in Whitby reserves the right to refuse membership to businesses it does not feel have the appropriate collaborative ethos, or where there appears to be a conflict of interest with existing members.

Membership can be revoked at any time if a business does not comply with membership conditions or is in danger of damaging Made in Whitby's reputation. When the membership year expires, or when membership is revoked, the business will be removed from the website and other promotional activity and the business must also remove the Made in Whitby logo from their promotional activity.

When joining, members undertake to not claim to speak on behalf of Made in Whitby, or to make any representation on behalf of Made in Whitby or the Made in Whitby festivals.

Members should not allow other items to be sold on their stalls that are not linked to their own business without prior agreement.

Members are encouraged to share and promote the festivals on social media that will run throughout the year.

Membership does not guarantee a stall at festivals. Stalls will only potentially be available to members of Made in Whitby. The final allocation of stalls will be decided by a small steering group whose decision will be final.

Further information will be sent out nearer each festival with rules that stall holders are advised to follow such as setting up stalls by a given time and not setting down/packing away until an agreed time. This will also include details of use of vehicles to drop off and pick stock up being moved away from the festival once unloaded.

Please use the application form to place details of your products.

Payment of annual membership is due 7 days after membership approval.

Many Thanks,
Made in Whitby
